NAVI MUMBAI INTERNATIONAL AIRPORT

MUMBAI GETS A NEW GATEWAY

Text by **M.G. ARUN**

The Navi Mumbai International Airport (NMIA), spread across Panvel and Ulwe, was inaugurated by Prime Minister Narendra Modi on October 8. Built to take the pressure off Mumbai's Chhatrapati Shivaji Maharaj International Airport, NMIA is slated to begin commercial operations in December. Developed under a public-private partnership, the project is jointly operated by Mumbai International Airport Ltd (a subsidiary of Adani Airport Holdings) with a 74 per cent stake and the City and Industrial Development Corporation of Maharashtra (CIDCO) with 26 per cent. In its first phase, NMIA will handle up to 20 million passengers a year with one terminal and a single runway. Over time, it will grow to four terminals and two runways, scaling up to 90 million passengers annually. The complex will also include a maintenance, repair and overhaul (MRO) hub with five hangars.

TOTAL AREA

1,160
HECTARES
(approx. 2,866 acres)

COMMERCIAL OPERATIONS

- To start in December
- Plans for 8-10 flights (domestic and international) every hour between 8 am and 8 pm
