units in the country. The Shield ICU, designed to accommodate 120 patients, follows a state-of-the-art oceanic theme, fostering mental and physical healing with its soothing ambiance.

The SAID Implant Center and the SPROUT Infertility Center are futuristic healthcare marvels that ensure patient care is both highly effective and cost-efficient. Saveetha also leads the nation in procuring medical and dental materials, purchasing ten times more than the next highest buyer, reflecting the sheer volume of hands-on experience students receive.

Every student at Saveetha manages and treats over 1,000 patients before graduating, ensuring they are among the most skilled healthcare professionals in the country. This extraordinary level of clinical exposure sets Saveetha-trained doctors apart, making them leaders in their respective fields.

REVOLUTIONIZING RESEARCH AND INNOVATION

Saveetha is a pioneer in research, with over 11306 papers in Scopus and an astounding 7185 publications in Web of Science, making it the highest publishing institution in the country (2024). The second-highest institution lags by nearly 40% in research output, cementing Saveetha's dominance in academic excellence. The quality of research is equally remarkable, with an FWCI score of 2.4, over 30 publications in The Lancet, and 200+ publications in Nature. The institution also boasts an impressive 25,000+ cumulative impact factor, reinforcing its status as a leader in research.

> The SAID Implant Center and the SPROUT Infertility Center are futuristic healthcare marvels that ensure patient care is both highly effective and cost-efficient.

Saveetha is home to some of the best research facilities in India, such as the Nano-CT, which is unavailable anywhere else in the country. Scientists from Singapore and Korea send samples to Saveetha for advanced research and analysis. The
