> Overall, the pace of our economies' development, China's economic growth, India, Brazil, and Russia, will ultimately shape the result of many financial processes in the world and are a defining factor for industrial potential and, to a great extent, also for global security. Our goal, therefore, remains unchanged – we want to strengthen the collective and legal foundations of international life…[]… The BRIC summit aims to create the conditions for building a fairer world order and to create a favorable environment for resolving global problems. Simultaneously, we must not overlook our national issues and objectives, which are priorities for all of us and preferences for all respective leaders and governments. (Medvedev 2009)[19]

Since then, Russia's regular adherence to BRICS has been continuously growing. The relations of BRIC countries are based on the below principles as according to Russia in BRICS,

> The relations between the BRICS countries based on the UN Charter, the universally recognized principles and norms of international law, and such principles as openness, pragmatism, solidarity, non-block nature and non-aggression towards third parties. BRICS is a vivid example of strengthening cooperative principles in world affairs. The states with cultural and civilizational differences build their relations on the principles of equality, strict consideration for each others' interests, mutual respect, and openness to the outside world. (Russia in BRICS 2009).[20]

Srikant Kondapalli and Priyanka Pandith (2016) stated that Russia is the locomotive for the rise of BRICS. It was necessary to understand Russia's bolstering multilateral ties with BRICS countries and its mobilizing support when facing west-imposed economic sanctions on Russia.

Russia's Economic Profile in the BRICS

The level of economic strength, development, and political impact became an indication of its power and influence in world affairs. As a member of BRICS, Russia has created a unique and completely different economic and political development model compared to the average Western country. The
