development and advance a community with a shared future for humankind. Xi Jinping made key proposals to stay resolved, strengthen unity, and enhance practical cooperation under present circumstances.[23] They are as mentioned below:

- First, the BRICS needs to strengthen the public health cooperation, and for that, the BRICS should step up the political coordination. The BRICS group countries must cooperate on the early launch of the BRICS vaccine R&D Centre in virtual format.
- The BRICS should strengthen the international cooperation on vaccines in the spirit of equitable access for all. He announced that on top of the 100 million US dollars donation to COVAX, China would donate an additional 100 million doses of vaccines to developing countries in the upcoming year.
- The BRICS further enhance economic cooperation in the spirit of mutual benefit. The BRICS earnestly implement the BRICS Partnership 2025 and expand cooperation in various areas like trade and investment, technology and innovation, and green and low-carbon development. He also said that since the BRICS Partnership on New Industrial Revolution innovation center at the Xiamen, all BRICS member's governments and business communities participate in it actively.
- The BRICS must enhance the political and security cooperation in the spirit of fairness and justice. For that, the BRICS countries should cooperate on common core interests and jointly safeguard the sovereignty, safety, and developmental interests,
- The BRICS countries should encourage people-to-people exchanges in the spirit of mutual learning. China suggested setting up a BRICS alliance to organize vocational skills competitions for vocational education. And also, China is ready to host the BRICS seminar on governance and the BRICS forum on people-to-people and exchanges and open an online training course for media professionals of the BRICS countries.[24]

Enhancing South-South Cooperation

On June 7, 2015, China and the Food and Agriculture Organization of the United Nations, FAO, have signed a US $50 million agreement to support the developing countries in building sustainable food systems and inclusive agriculture value chains. China recognized the importance of collaboration
