attempts being made to suppress Russia and the BRICS due to its intensive cooperation on global affairs and its stand taken together. The critical aspect of the BRICS group is the diversifying of its collaboration over some time. BRICS activities in international relations are growing, and cooperation in many areas has been causing a flutter in the Western world. Gleb Ivashentsov, ambassador extraordinary and plenipotentiary, Deputy Director of Russia's APEC Study center, while giving an interview to Russia's *Direct Journal* on July 8, 2015, said that at present there are more than 20 framework cooperation areas within the bloc in economy and finance, such as annual summits to working groups, which includes areas of international information security, health, agriculture, science, and technology. There is also cooperation in education and culture (Zubacheva 2015). Thus, the BRICS is diversifying their collaboration at the BRICS forum. That shows how these countries have intensified their relations in recent times. The reason behind their active engagement is the US's diabolical diplomacy toward these two countries. The US military's active engagement around the Asia–Pacific region and Russia's strategic neighboring areas has been a constant threat to these two countries' security. In 2015 at the US Senate's armed services committee, America's Marine Corps General Joseph Dunford, who criticized Russia, said Russia is the greatest threat to the United States' national security.

> My assessment today… is that Russia presents the greatest threat to our national security. If you want to talk about a nation that could pose an existential threat to the United States, I'd have to point to Russia. And if you look at their behavior, it's nothing short of alarming. (Kumar 2015)

It seemed as if the United States was anticipating war with Russia and China in the coming period. Later, Dunford's views appeared in the BRICS and SCO summits of Ufa. This shows that China's and Russia's growing sway around the Eurasian landmass was alarming the Pentagon. China's Vice Premier of State Council Zhang Gaoli, at the ceremony of opening the first annual meeting of the Board of Governors of New Development Bank (NDB) stated that BRICS members were confident that the tendency of its countries' growing status will persist, and continued to boost BRICS' influence in the international arena. He also said that NDB would continue
