

TOP 10 COLLEGES 2026 ARCHITECTURE

	RANK 2026	RANK 2025	COLLEGE	CITY
↔	1	1	DEPARTMENT OF ARCHITECTURE AND PLANNING, IIT ROORKEE	Roorkee
↔	2	2	SCHOOL OF PLANNING AND ARCHITECTURE (SPA)	New Delhi
↑	3	4	SCHOOL OF PLANNING AND ARCHITECTURE (SPA)	Bhopal
↓	4	3	SCHOOL OF PLANNING AND ARCHITECTURE	Vijayawada
↔	5	5	FACULTY OF ARCHITECTURE AND EKISTICS, JAMIA MILLIA ISLAMIA	New Delhi
↑	6	7	DEPARTMENT OF ARCHITECTURE, NATIONAL INSTITUTE OF TECHNOLOGY HAMIRPUR	Hamirpur
↓	7	6	DEPARTMENT OF ARCHITECTURE AND PLANNING, BIRLA INSTITUTE OF TECHNOLOGY MESRA	Ranchi
↔	8	8	SIR J.J. COLLEGE OF ARCHITECTURE	Mumbai
↑	9	11	DEPARTMENT OF ARCHITECTURE, ALIGARH MUSLIM UNIVERSITY	Aligarh
↑	10	13	RV COLLEGE OF ARCHITECTURE	Bengaluru

GURUSPEAK

“Our strength lies in blending design excellence, technology, engineering, sustainability and social relevance with interdisciplinary learning and real-world exposure. We are mentoring students to build resilient, future-ready communities”

MAHUA MUKHERJEE
Head, Department of Architecture and Planning, IIT Roorkee

pands into landscape ecology, urban climate resilience and heritage conservation frameworks. Pushing the envelope on spatial design, students will even dive into the cutting-edge mechanics of extra-terrestrial habitat design, planning layouts for environments beyond Earth.

This year, the institute also starts its new interdisciplinary, studio-based learning model. Academic design tracks now merge directly with computational and engineering sciences. Students will also collaborate on projects with experts in Civil Engineering, Computer Science and Earth Sciences. Studio problems will evaluate structural designs from multiple angles, incorporating water resources management, transportation grid engineering, mechanical and electrical utilities and advanced safety and data systems.

This collaborative framework is backed by an extensive digital transformation across all studio environments. The physical drafting board is being replaced by high-performance digital architecture and analytical rendering software. Incoming students will build mastery in Building Information Modelling (BIM) architectures for real-time virtual simulations. By using geographic information systems (GIS), geospatial analytics and urban data

*The college that has topped the overall rankings with the highest score
