SONA COLLEGE OF TECHNOLOGY REDEFINES ENGINEERING EDUCATION WITH INDUSTRY READY LEARNING

In an era where academic degrees alone are no longer enough to guarantee career success, Sona College of Technology in Salem is setting a new benchmark for engineering education by transforming classrooms into launchpads for real world readiness. Established in 1997, Sona College of Technology has emerged as one of Tamil Nadu's leading engineering institutions by combining academic excellence with practical industry exposure. Backed by a strong industrial legacy and visionary leadership, the institution has built a reputation for preparing students not just for graduation, but for the demands of the modern workforce.

Founded by the industrialist and educationist, Sri M. S. Chockalingam, and currently steered by Chairman, Sri C. Valliappa, the institution leverages deep industry connections to design curriculum that remains aligned with evolving market needs. With 14 undergraduate engineering programmes, 8 postgraduate programmes, and specialised streams in Artificial Intelligence, Machine Learning, and Cyber Security, the college encompasses a future focused academic ecosystem.

Sona's R&D strengths have also contributed to the institution's industry linkage through initiatives of Vice-Chairman, Mr. Chocko Valliappa, who also, as CEO of Sona SPEED, Bangalore, has advanced mechatronics manufacturing solutions across sectors like aerospace, defence, and medical. Extending this vision beyond manufacturing, he also founded HireMee, an AI-powered talent assessment and recruitment platform that bridges academia and industry through skill-based, data-driven hiring, reinforcing real-world readiness.

What sets Sona apart is its emphasis on experiential learning. Through SCALE, its dedicated finishing school established by Vice-Chairman, Mr.Thyagu Valliappa, students receive advanced training in high demand sectors such as VLSI, Electric Vehicle Technology, and Data Analytics, ensuring they graduate with practical industry relevant skills.

Research and innovation form the backbone of the institution's academic culture. Its 36 Advanced Research Centres, inaugurated by former President, Dr. A.P.J. Abdul Kalam, provide students with opportunities to work on impactful projects. One of its flagship centres, SonaSPEED, has contributed precision stepper motors used in ISRO's Chandrayaan 3 mission and the NASA ISRO NISAR project, showcasing the institution's involvement in globally significant technological advancements.

The college also boasts over 203 Ph.D. qualified faculty members and has secured the No. 1 position in India for NPTEL Faculty Performance for seven consecutive terms among more than 7,000 colleges.

Spread across a 50-acre campus in the heart of Salem, Sona offers a vibrant learning environment with smart classrooms, high speed internet, advanced laboratories, sports facilities, and cultural platforms that promote holistic development.

The institution's performance in placements further reinforces its standing. Students have secured opportunities with top recruiters including Amazon, Bosch, IBM, Zoho, and Accenture, with salary packages reaching up to ₹21 lakh per annum domestically and 34 million JPY internationally.

With NAAC A++ accreditation, consistent high ranking in NIRF among India's top engineering institutions, and a strong focus on innovation, placements, and research, Sona College of Technology offers far more than a degree and stands tall as a gateway to a future ready engineering career.

KMCH & DR NGP EDUCATIONAL INSTITUTIONS-SETTING NEW STANDARDS IN EDUCATIONAL EXCELLENCE

Education is the foundation of a progressive and enlightened society. With this vision, the **Dr. NGP Research and Educational Trust** (formerly known as the Kovai Medical Center Research and Educational Trust), Coimbatore, was established in 1990 with a steadfast commitment to providing quality education and creating opportunities for aspiring learners from diverse backgrounds.

Over the years, the Trust has evolved into one of the most respected names in the fields of education and healthcare, contributing significantly to the social, intellectual, and economic development of the region. Under the visionary leadership of **Dr. Nalla G. Palaniswami, Chairman, KMCH & Dr. NGP Research and Educational Trust,** and the dedicated guidance of **(Late) Dr. Thavamani D. Palaniswami, Managing Trustee,** the Trust has consistently upheld high standards of academic excellence, innovation, and professional ethics. Their commitment has enabled the institutions to achieve remarkable milestones and gain recognition for delivering value-based, career-oriented, and industry-relevant education.

The Trust has established a strong network of educational institutions that cater to a wide spectrum of academic disciplines, enabling students to pursue excellence in their chosen fields. The institutions offer comprehensive educational opportunities ranging from Arts and Science to Engineering, Pharmacy, Nursing, Physiotherapy, Occupational Therapy, Allied Health Sciences, Teacher Education, and School Education. The Trust also nurtures young minds through both **CBSE and Cambridge curriculum** schools, ensuring a globally relevant and future-ready learning experience.

With its unwavering focus on academic excellence, research, innovation, skill development, and holistic student growth, the Trust continues to shape responsible citizens, competent professionals, and future leaders who contribute meaningfully to society and nation-building.
