NEW ENTRANTS DENTAL

Colleges that feature among the top 25 for the first time

RANK	COLLEGE	CITY
24	SCHOOL OF DENTAL SCIENCES, SHARDA UNIVERSITY	Greater Noida

Beyond research and technology, the institute's long-running community dentistry programmes continue to connect students with public-health initiatives, outreach camps and collaborations with NGOs, offering firsthand exposure to oral healthcare challenges beyond urban clinical settings. International collaborations are also expected to expand in the coming year, building on existing exchange programmes and academic partnerships that have provided students with opportunities for global exposure.

"MAIDS as my alma mater gave me immense opportunities to learn, grow and succeed in academics and clinical skills," says Dr Parul Mutneja, MAIDS alumna and assistant professor and staff surgeon, Vardhman Mahavir Medical College and Safdarjung Hospital, Delhi. "Nine years at MAIDS helped me to discover the ultimate mantra of my profession—ethical practice, empathy and patient welfare. My journey at the institute was rewarding and I feel forever grateful to carry forward its proud legacy."

For incoming students, MAIDS's appeal extends beyond its reputation for clinical training. It is increasingly positioning itself as a place where future dentists can engage with research, innovation, public health and technology while benefiting from the intensive patient exposure that remains central to dental education. ■
