TECHNICAL UNIVERSITIES WITH HIGHEST NUMBER OF PATENTS GRANTED IN PAST THREE YEARS

RANK	UNIVERSITY	NO. OF PATENTS
1	INDIAN INSTITUTE OF TECHNOLOGY KANPUR	509
2	INDIAN INSTITUTE OF TECHNOLOGY DELHI, NEW DELHI	442
3	INDIAN INSTITUTE OF TECHNOLOGY ROORKEE	367
4	INDIAN INSTITUTE OF TECHNOLOGY KHARAGPUR	341
5	NATIONAL INSTITUTE OF TECHNOLOGY CALICUT, KOZHIKODE	143

TOP 5

TECHNICAL UNIVERSITIES WITH HIGHEST NUMBER OF PATENTS LICENSED IN PAST THREE YEARS

RANK	UNIVERSITY	NO. OF PATENTS
1	INDIAN INSTITUTE OF TECHNOLOGY PATNA	57
2	INDIAN INSTITUTE OF TECHNOLOGY DELHI, NEW DELHI	41
3	VISVESVARAYA TECHNOLOGICAL UNIVERSITY, BELAGAVI	36
4	INDIAN INSTITUTE OF TECHNOLOGY KANPUR	23
4	INDIAN INSTITUTE OF TECHNOLOGY ROORKEE	23

STUDENTSPEAK

"Two years at IIT Delhi have transformed my academic journey. Supportive faculty, world-class labs and computational facilities, inspiring talks by global experts and a vibrant community of intellectually curious students have deepened my understanding of science and motivated me to contribute through research"

JOSWIN P. JOY
PhD scholar, Centre for Atmospheric Sciences, IIT Delhi

recorded and translated into multiple Indian languages, allowing students from non-English-speaking backgrounds to revisit complex concepts in their mother tongue. AI-powered translation will further expand the programme.

Recognising that technical expertise alone is insufficient, IIT Delhi has established a Teaching-Learning Centre and a Centre for Academic Communication to help students present their research effectively and engage wider audiences. Equally important is student well-being. An Academic Progress Group provides personalised academic support, while an expanded counselling network and partnerships with hospitals ensure access to professional mental health services. "We cannot remove every pressure students face, but we can create a strong support system that helps them overcome those challenges," says Prof. Roy.

Innovation extends well beyond classrooms. Mandatory internships for undergraduate and MTech students, industry exposure for PhD scholars, active technical clubs, makerspaces (collaborative work spaces) and a well-equipped Central Workshop encourage students to transform ideas into working prototypes. Together, these initiatives are helping IIT Delhi prepare future innovators equipped to lead in an increasingly interconnected world. ■
