BEYOND DEGREES. TOWARDS GREATER HEIGHTS.

With AI-powered learning, multidisciplinary education, global collaborations and industry-driven experiences, Presidency University Bengaluru is preparing students not just for their first job—but for a lifetime of possibilities.

The Presidency Group of Institutions, established in the year 1976, of which Presidency University is a unit, has been contributing to the cause of education in the State of Karnataka for more than 50 years in schooling and over two and half decades, in higher education.

Presidency U niversity is a Private University, established as such by the State Legislature under a self-regulating act, Presidency University Act, 2013, notified in the Official Gazette, as Act No. 41 of 2013.

Nestled in a sprawling, state-of-the-art **100-Acre campus, this NAAC 'A'-accredited University** acts as a micro-ecosystem where over 20,000 learners, actively collaborate across diverse streams. Propelled by a rich 50-year legacy of academic excellence, from the Presidency Group of Institutions, Presidency University is designed to dismantle hitherto traditional academic silos.

The University presently comprises of Eleven [11] Schools, the School of AI and Advanced Computing, School of Computer Science, School of Engineering, the School of Information Science, the School of Management, the School of Law, the School of Design, the School of Commerce, School of Allied Health Sciences, School of Liberal Arts and Sciences and the School of Media Studies.

Taken together, the University offers around 72 contemporary Programs, both Undergraduate and Post-graduate, and covers more than 100 domains of specialisation.

Focused on transforming itself into an AI-driven University, the School of Artificial Intelligence and Advanced Computing of the University is spearheading this initiative, strategically. In this direction, a **Centre of Excellence has been established in collaboration with NVIDIA.** Rather than being a mere Computer Laboratory, this Centre is a high-performance computing powerhouse designed to give students and researchers the raw processing muscle needed to train complex neural networks and tackle real-world automation challenges. To align to this massive academic leap, the University introduced BOHRAI (Bharat Open Innovation Hub for Robotics and AI). Reinforcing this strategic momentum is the revolutionizing the Pedagogy. Presidency University is not just introducing a new concept; it is charting a course for the development of next generation Global Tech Visionaries.

Redefining Higher Learning in a Multi-Disciplinary Ecosystem

Presidency University is focussed on propagating Contemporary Education based on the Core Pillars of Skill-based Modular Learning, Digital Transformation, Integration of AI with Data-analytics, Industry-Aligned-curriculum, Internationalisation and Interactive Pedagogy. Together, driven by Artificial Intelligence, Dynamic Markets and Globally destabilizing challenges, the traditional definition of Higher Education, is fast evaporating. The demand for unitary-discipline specialists is on the wane. Instead, the Global Employment Market craves for resources with adaptive and multi-discipline oriented minds. Situated in the Technology-epicentre of India, Presidency University has, over
