MEDICAL UNIVERSITIES WHERE STUDENTS (MS/ MD) ATTEND TO HIGHEST NUMBER OF OPD PATIENTS

RANK	UNIVERSITY	AVERAGE NUMBER OF PATIENTS
1	ALL INDIA INSTITUTE OF MEDICAL SCIENCES (AIIMS), NEW DELHI	14,371
2	NATIONAL INSTITUTE OF MENTAL HEALTH AND NEUROSCIENCES (NIMHANS), BENGALURU	13,174
3	ALL INDIA INSTITUTE OF MEDICAL SCIENCES (AIIMS), PATNA	12,228
4	PANDIT BHAGWAT DAYAL SHARMA UNIVERSITY OF HEALTH SCIENCES, ROHTAK	9,709
5	INSTITUTE OF LIVER & BILIARY SCIENCES, NEW DELHI	8,564

Average number of patients attended to by a final year student (MS/ MD) with the help of senior doctors in various OPDs (in one year)

tory science. Departments are equipped with sophisticated diagnostic and research facilities, while students regularly present their work at national and international conferences, building academic credentials early in their careers.

Another defining feature is the institute's strong culture of super-specialisation. Students train alongside nationally recognised experts across virtually every discipline, creating opportunities for mentorship that extend well beyond residency. "The academic environment also promotes collaboration across departments, allowing physicians, surgeons, radiologists, pathologists, geneticists and basic scientists to work together on patient care and research," says Dr Aakanksha Kumari, DM Endocrinology, AIIMS Delhi.

AIIMS has also been updating its postgraduate programmes to reflect the changing nature of medicine. This year, it introduced three new specialisations within the MSc Nursing programme. The institute has also renamed its DM Endocrinology course as DM in Endocrinology, Metabolism and Diabetes, recognising the growing importance of diabetes and metabolic disorders in clinical practice.

The AIIMS campus is home to PULSE, one of India's best-known inter-medical festivals for cultural, literary, sports and research events. Residents have access to a 24-hour library, sports facilities and societies for music, theatre, debating, photography and community service

Training, too, is evolving alongside these changes. Depending on their specialisation, residents today work with advanced imaging, minimally invasive and robotic surgery, molecular diagnostics, precision medicine and digital health technologies that are becoming an increasingly routine part of patient care.

The Department of Community Medicine at AIIMS is another distinctive part of the curriculum. It trains postgraduate students to understand health beyond the walls of a tertiary-care centre. Residents gain hands-on experience in epidemiology, disease surveillance, health systems, biostatistics and public health research while working in urban and rural field-practice areas.

What ultimately sets AIIMS apart, however, is the stimulating environment in which this learning takes place. Residents are exposed to an extraordinary range of patients while learning from some of the country's leading clinicians and researchers.

Life at AIIMS also extends beyond residency. The campus is home to PULSE, one of India's best-known inter-medical festivals, bringing together students for cultural,
