

VF MPV 7

VinFast has expanded its India portfolio with the launch of the VF MPV 7. It is available in a single variant and comes with a 60.13 kWh battery pack paired to a single motor making 204 bhp and 280 Nm of torque and is ARAI certified for 517 km on a single charge. Like its other models, the VF MPV 7 takes on a family design aesthetic with slim LED that merges into the V-shaped logo up front. It gets 19 inch alloys, while the MPV 7 carries an overall typical MPV silhouette. The rear is upright, with a large roof-mounted spoiler and a connected LED light bar that, like the front, meets in the middle, forming the V-shaped VinFast logo. It is only available in a seven-seater format, and is priced at Rs 24.49 lakh (ex-showroom). The interiors follow the theme of not using typical instrumentation, with the 10.1 inch display serving as the control hub.

spoiler further sharpen the sedan's appearance. Inside, the City gains a larger 10.1 inch touchscreen infotainment system with wireless smartphone connectivity, ventilated front seats, and a 360 degree camera. Other highlights include an eight-speaker audio system and Honda Sensing ADAS features. Powertrain options remain unchanged. The 1.5 litre naturally aspirated petrol engine produces 121 bhp and 145 Nm and is available with either a six-speed manual gearbox or a CVT automatic version. The City e:HEV continues with Honda's dual-motor strong-hybrid system paired with an e-CVT gearbox, delivering 126 bhp and a claimed fuel efficiency of 27.26 kmpl. Prices start at Rs 12 lakh and go up to Rs 21 lakh (all ex-showroom) for the top variant.

WAGONR E100 VERSION

Maruti Suzuki has launched the WagonR flex fuel at Rs 7.24 lakh (ex-showroom), making it India's first passenger vehicle capable of running on E100 ethanol. The WagonR flex fuel features modified fuel injectors, fuel pump, fuel lines and engine components, along with recalibrated ECU to enable operation on ethanol blends ranging from E20 to E100. Based on the standard WagonR, the flex-fuel version remains visually unchanged. Power comes from the familiar 1.2 litre K12N petrol engine designed to operate on a wide range of ethanol blends.
