

MANDAR DEODHAR

METALS VERSUS SILVER | GOLD & SILVER: WHERE SHOULD YOUR MONEY SHINE?

"Thirty years ago, central banks were net sellers and the main consumption of gold was in jewellery. Today, about 20% of gold is consumed annually by central banks, about 30% for jewellery, around 43% for financial reasons and 6-7% for technology"

"We have always recommended that if your portfolio has 10-15% invested in gold scientifically, it improves the portfolio's health"

"The financial demand for gold last year crossed $6 trillion...that made gold the most liquid asset on planet Earth. In that respect, the new role of gold and its criticality cannot be ignored"

SACHIN JAIN, *Regional CEO, India, World Gold Council*

PATIENT CAPITAL: CAN PENSION MONEY ANCHOR INDIA'S MARKETS?

"The pension corpus is around Rs 50-60 lakh crore, but it is only 15% of the GDP. However, even in OECD* countries, it is 100% of the GDP. The National Pension System and pension funds in India are in a nascent stage"

PRANAY RANJAN DWIVEDI
MD & CEO, SBI Pension Funds

**Organisation for Economic Co-operation and Development*

"We are becoming more accessible to the young customer. With technology, it is easier to open a pension account. Youngsters are setting aside some money for retirement, and want to retire early, too, say at 40"

SUMIT SHUKLA
MD & CEO, Axis Pension Fund
