MEGA OFFERINGS TO BOOST BOURSES

Two of India's biggest initial public offerings—Jio Platforms and NSE—are poised to raise up to Rs 67,000 crore between them, spurring a fresh wave of listings

By M.G. ARUN

THE ANNOUNCEMENT OF TWO OF THE BIGGEST INITIAL PUBLIC OFFERINGS (IPOs) in Indian stock market history—Jio Platforms and the National Stock Exchange (NSE)—has strengthened confidence in India's growth story, just as global markets begin to regain their footing amid easing hostilities in West Asia. Together, the two offerings could raise close to Rs 67,000 crore, eclipsing previous fundraising records and potentially reviving momentum in India's primary markets.

Mukesh Ambani-owned Jio Platforms plans to issue 270 million new shares in an IPO expected to raise around Rs 37,000 crore, valuing the telecom and digital giant between Rs 11 lakh crore and Rs 15 lakh crore.
