COLLECTOR'S EDITION

What began purely as a passion project for Jaipur-based entrepreneur Gaurav Mehta has grown to become one of our most-loved homegrown watch brands. The Jaipur Watch Company's latest launch—held in the regal ambience of the Chamber of Princes at the Rambagh Palace in Jaipur—marks the next stage in the evolution of a brand known for tapping into the finest Indian craftsmanship and for its maximalist aesthetic, inspired by Indian heritage and motifs. Gaurav Mehta Jaipur, as the new collection is called, is JWC's most exclusive yet, and honours the self-taught horologist and the creative force behind the Jaipur-based brand. The collection consists of two extraordinary creations: the Premium Baagh and Gates of India.

The original Baagh collection was launched in August 2022—featuring a one-rupee coin from 1947 with a walking tiger on the dial—to celebrate India's 75th Independence Day. The motif now returns in the Premium Baagh collection as a sculpted golden tiger on the dial, which further combines a stunning palette of traditional materials and time-honoured techniques—turquoise stone forms a brickwork mosaic backdrop, contrasting with an off-centre time display wrapped in authentic pink Muslin Khadi fabric. Nothing says Rajasthan quite like the miniature Chhatri set with a ruby jewel. Delicate filigree work frames the entire composition. The tiger reappears on the exhibition caseback which reveals the beating heart of the watch. The most premium variant has been made using 904L stainless steel and features a Swiss Sellita SW200 automatic movement.

No less stunning is the Gates of India series, a tribute to India's glorious architectural and cultural legacy. The watches feature two iconic gates of the City Palace, Jaipur on the dial—the Lotus Gate and the Leheriya Gate. Then comes the twist, a unique flip mechanism which reveals another watch face, this time in mother of pearl, featuring some of the nation's most celebrated monuments such as the Gateway of India, Red Fort, India Gate, and Charminar, with CNC machining bringing out the finer details.

With the recent launch of Gaurav Mehta Jaipur, the Jaipur Watch Company has truly seized the moment and its date with time.

Prices
Premium Baagh SW200 variant priced at ₹1,75,000
Other Premium Baagh variants priced at ₹75,000
Gates of India priced at ₹50,000
