DEEP MISSION

Blancpain

Fifty Fathoms Tech ref. 5019A

Blancpain's Fifty Fathoms Tech is not pretending to be a desk diver. Its 47 mm Grade 23 titanium case is water-resistant to 300 metres, carries a helium escape valve and uses a unidirectional three-hour bezel developed for extended dives. The Absolute Black dial absorbs up to 97 per cent of incoming light, while blue and green lume separates dive data from ordinary timekeeping. Calibre 13P5A adds a date and five-day reserve. It is huge, specialised and refreshingly uninterested in compromise.
