

REGATTA COMMAND

Rolex

Yacht-Master II ref. 126680

Rolex revives its specialist sailing watch as a 44 mm Oystersteel regatta instrument. Its programmable countdown can be set from one to ten minutes, memorises the chosen duration and resynchronises if the official signal changes. Calibre 4162 supplies a 72-hour reserve, Parachrom hairspring and Paraflex shock absorbers. A Triplock crown, 100-metre water resistance and Oysterlock clasp provide seagoing security, while the scratch-resistant blue ceramic bezel controls the countdown. Large, complicated and unapologetic, it is exactly what a mechanical regatta timer should be.
