OYSTER CENTURY

Rolex

Oyster Perpetual 41, 100th Anniversary ref. 134303

Rolex marks a century of the Oyster with commendable restraint. The 41mm case combines Oystersteel and yellow gold, recalling the Rolesor formula that has been part of the brand's vocabulary since the 1930s. A new slate dial carries green five-minute markers and a matching Rolex signature, while "100 years" quietly replaces "Swiss Made" at six o'clock. The absence of a date keeps the design unusually clean. Inside, automatic calibre 3230 supplies a 70-hour power reserve, robust anti-magnetic components and Superlative Chronometer precision. Waterproof to 100 metres, it celebrates the Oyster not as an archival curiosity, but as an idea Rolex has spent a century methodically perfecting.
