Bulgari

Octo Finissimo 37 in Yellow Gold

Gold usually adds visual weight. Bulgari somehow makes it look aerodynamic. The 37 mm Octo Finissimo cuts its satin-polished yellow-gold case, dial and bracelet into facets that catch light without turning the wrist into a disco ball. More importantly, the smaller format debuts the 2.35 mm-thin BVF 100, a platinum micro-rotor automatic with 72 hours of reserve. At just 6.45 mm thick, it is jewellery with an engineering degree: opulent enough for evening, yet disciplined enough to make most full-gold sports watches look embarrassingly overfed.
