

Maximalist in Maximum City

Mumbai's newest design destination, Roswyn, A Morgans Originals Hotel is big on space and personality.

I've never quite cracked Mumbai. Every visit begins with the same initiation: crawling through traffic, navigating bumpy roads that leave me slightly motion sick, and stepping into the city's thick, salty air. While I've always admired its energy and ambition, I've never quite felt at ease in Maximum City. This time, though, Mumbai seems determined to change my mind. Instead of joining a taxi queue or repeatedly refreshing a ride-hailing app, I'm ushered into a waiting Mercedes-Benz GLE. Settled into its plush leather seat, I sip infused water and cool off with a chilled towel as the city's familiar chaos unfolds outside the window.
