Poulomi Florique

Where *Bengaluru* Finds Its *Life* in *Bloom*

For decades, Bengaluru has been known as India's Garden City. But as the city grew into one of the country's strongest technology and business capitals, its relationship with nature slowly began to change. Expanding skylines, denser neighbourhoods, and faster urban lives created a new aspiration among homebuyers — the desire to return to openness, greenery, calm, and healthier community living.

It is this very aspiration that Poulomi Estates brings to life with Poulomi Florique, its first residential project in Bengaluru. Located on Thanisandra Main Road in North Bengaluru, Poulomi Florique has been envisioned as India's First Bloomscapes Community — a premium residential address where floral landscapes, aroma-inspired green spaces, thoughtful design, and modern homes come together to create a life that feels naturally elevated.

Backed by Poulomi Estates' two-decade legacy of landmark creation in Hyderabad, Poulomi Florique marks an important new chapter for the brand. Since 2005, Poulomi Estates has built its reputation on trust, quality, timely execution, and customer confidence. With Florique, the company carries this legacy into Bengaluru, a city whose homebuyers are increasingly seeking not just square footage, but meaningful living environments.

Spread across 8.66 acres, Poulomi Florique comprises 720 premium residences across four residential towers. The project offers thoughtfully designed 3BHK residences, with sizes ranging from approximately 1580 sq. ft. to 2740 sq. ft. Designed for modern families, the homes reflect a careful understanding of privacy, comfort, functionality, and everyday convenience.
At the heart of the project is its defining idea: Bloomscapes. More than a landscape feature, Bloomscapes is a living concept. It brings together floral gardens, aromatic planting, open greens, sensory pathways, and calming outdoor spaces to create a residential environment that feels refreshing and emotionally uplifting. In a city where nature is increasingly becoming a luxury, Poulomi Florique places nature at the centre of daily life.

The project's 85% open spaces reinforce this vision. With expansive green areas, a vehicle-free podium, and thoughtfully planned community zones, the development is designed to offer residents more room to breathe, walk, pause, interact, and unwind. For families with
