

WHAT'S IN

Soft, nature-led colours: Sage, olive, muted blue, terracotta and warm neutrals are replacing loud, themed palettes.

Furniture that grows: Modular storage, adjustable desks and multifunctional beds are designed to last beyond one age or stage.

Natural materials: Wood, cane, bamboo, rattan and linen bring warmth and texture while keeping the look understated.

More open space: Fewer, better-chosen pieces and clever storage leave room for play, movement and imagination.

Personal touches: Keep the base timeless and let children's artwork, books, collections and changing interests bring the personality.
