Grade 10

Beyond technology, the group has also revolutionised music education, thanks to a collaboration with renowned musician Ehsaan Noorani. Their schools now boast fully-equipped music studios, where each student has access to an instrument. Ivy World Play School, Ludhiana is India's first to introduce baby pianos and keyboards for children as young as three. Music competitions organised by the school take students all the way to Mumbai, turning childhood passion into a potential career.

Education, in Mr. Vasal's vision, must transcend borders. That's why Vasal Education has established international collaborations, including a prestigious partnership with the Michigan Colleges Alliance, USA. This opens doors for students to earn transferable credits, paving the way for direct admission into top global universities - a game changer for those aspiring to study abroad.

Despite these leaps in academics, mental health, technology and global exposure, the core philosophy remains simple - "What more can we do for our students, teachers and society?"

Mr. Vasal keeps himself constantly engaged with students, believing that real innovation comes from understanding their needs firsthand.

Vasal Education is not just building schools - it is shaping futures. With an ever-expanding vision, a relentless commitment to quality and a deep-rooted sense of social responsibility, it stands as a beacon of educational transformation in India.
