

Government of Bihar

Under the visionary leadership of
Hon'ble Chief Minister

Shri Nitish Kumar

Bihar shines bright
with uninterrupted 24×7 electricity lighting up every household

125 units of electricity free for all domestic electricity consumers since August (i.e., form July 2025 consumption).

1.89 crore domestic electricity consumers are directly benefiting from this initiative

Grant of **₹19,792** crore approved for **2025–26** under the Mukhya Mantri Vidyut Upbhokta Sahayata Yojana

---

All categories of consumers are benefiting from this grant.

Electricity at just **Rs 55 paise per unit** for farmers' irrigation and cold storage.

Target to promote solar energy over the next three years by installing solar power plants on all domestic rooftops and public places.

Full financial assistance provided to Kutir Jyoti consumers for the installation of solar power plants.

Other domestic consumers will also receive financial assistance for installing solar power plants.

Electricity consumers have increased 13 times:
2005: 17.31 lakh
2025: Over 2.16 crore

The country's largest battery storage project at Kajra, Lakhisarai, with 301 MW solar production and 495 MWH production capacity.

The largest investment project in the energy sector of Eastern India, with a production capacity of 2400 MW, has been launched in Pirpainti, Bhagalpur.

Maximum Demand Met:
2005: 700 MW
2025: 8752 MW

The dream of a radiant Bihar is now reality, as the state moves ahead with pride.
