Comprehensive Achievements and Impact

i-Hub has supported 620 startups, collectively generating ₹690 crore in revenue, securing over ₹160 crore in private funding, and creating more than 3,000 skilled jobs, significantly contributing to Gujarat's economic and employment landscape. A key pillar of this success is the State-Level Intellectual Property Facilitation Centre (IPFC) established under SSIP 2.0, which offers extensive assistance for protecting and commercializing innovations. With 23 empanelled IP facilitators i-Hub has supported its startups for protecting their IP.

Functioning on a Hub-and-Spoke model, i-Hub's outreach spans over 20 districts, extending its services to both urban and rural innovators. More than 500 startups have been supported under the **MAGIC Connect** framework which fosters collaboration among Market, Academia, Government, Industry, and Community and over 100 Startup Demo Days have been hosted across state.

In its pursuit of inclusive entrepreneurship, i-Hub has championed women-led innovation through programs like WEstart. Of the 620 incubated startups, 196 (around 30%) are led by women across sectors. Under the Startup Srujan Seed Support Scheme, 91 of the 382 funded startups are women-led.

Acceleration remains a strong focus area. Through programs like the Startup Saksham Acceleration Program a three-month hybrid initiative delivered in collaboration with Indian Acceleration startups are equipped with skills in financial management, business development, and go-to-market strategies. It has hosted Investor-Startup Meetups featuring more than 120 startups pitching to over 100 venture capitalists and angel networks. i-Hub has also collaborated with professional bodies like ICAI and ICSI to sensitize the professionals on startup finance and compliance.

A key milestone in i-Hub's journey was Startup RISE 2023, which facilitated ₹146.35 crore in investments through direct funding and Letters of Intents. The event attracted 6 unicorns, 56 venture

capital funds, 7 global accelerators, and more than 250 startups showcasing cutting-edge innovations. The summit culminated in the signing of 50 MoUs with VC funds and featured high-impact sessions such as the Unicorn & VC Roundtable, Investor Pitching, and Startup Conclave Plenary Sessions.

With these strategic initiatives, i-Hub continues to drive innovation, market expansion, funding access, and industry collaborations, solidifying Gujarat's position as a thriving startup hub.

Future Roadmap

i-Hub will provide seed grant to 500 startups over five years. It will groom 1500 Student Startups coming out of various universities and institutions. i-Hub will also nurture all incubators across academia and help in developing policy, pedagogy and

institutional mechanism to support startups across industry and government. i-Hub will develop sector-specific incubation and acceleration programs and help startups to access the risk capital and venture funding for growth and expansion.

As the nation moves toward the vision of Viksit Bharat by 2047, i-Hub stands at the forefront of this transformation, aligning early stage ventures with global opportunities. Through its integrated model and concrete roadmap for the next five years, i-Hub is not only catalysing Gujarat's startup revolution but also positioning it as a unique model for India's innovation-led economy.
