

CHANDRADEEP KUMAR

No. 1 DEPARTMENT OF ARCHITECTURE AND PLANNING, IIT ROORKEE

Roorkee

5 REASONS WHY IT IS THE BEST

1 The Department of Architecture and Planning at IIT Roorkee stands out for its state-of-the-art infrastructure. Facilities include advanced design studios, computer labs with industry-grade software, modern workshops and a rich digital library, fostering a high-quality learning environment. The experienced faculty integrate cutting-edge research findings into course design and classroom instruction to enhance student learning with real-world relevance and emerging knowledge.

2 Students engage in research in sustainability, urban resilience and building technologies, with opportunities for funded projects, international conferences and collaboration on industry-sponsored initiatives. Architectural competitions, industry-academia interactions, internships with top architecture firms and visits by alumni and guest experts ensure exposure to real-world challenges.

3 The department offers a well-rounded curriculum that blends theoretical grounding with hands-on practice, aligning with India's National Education Policy 2020. They also offer semester exchange programmes and opportunities to work with international professionals.

4 The department has incorporated trends like AI/Machine Learning, smart environments, computational design, resilient and climate-responsive architecture into its pedagogy and projects. It is supported by visionary leadership and a strong alumni network. It cultivates professionals who shape sustainable, inclusive and innovative built environments.

5 With cultural and technical festivals like Thomso and Cognizance, E-Summit, Startup Expo, active student societies, world-class sports and recreational facilities, life on campus celebrates creativity, leadership and balance.
