

No. 1 NATIONAL LAW SCHOOL OF INDIA UNIVERSITY, *Bengaluru*

STUDENTSPEAK

"It's an open space where everyone gets a chance to speak and analyse all sorts of viewpoints about law. This is what distinguishes it from other law schools"

APUL VAISHNAV
LLB (Hons), 2nd year

5 REASONS WHY IT IS THE BEST

1. NLSIU follows a demanding Socratic method of teaching, blending structured classroom learning with continuous research and writing. This ensures students develop sharp analytical and professional skills.

2. The introduction of 3-year LLB (Hons) and BA (Hons) programmes, in addition to its flagship 5-year BA LLB, reflects NLSIU's leadership in shaping modern legal education.

3. NLSIU is proactively preparing students for a future shaped by generative AI. The curriculum integrates foundational disciplines such as Political Science, History and Economics, alongside early exposure to technology, encouraging students to become creators—not just users—of AI tools in the legal domain.

4. NLSIU graduates are highly sought after, with 50-60 per cent joining top corporate law firms, 20-30 per cent pursuing litigation, and others entering academia, higher studies or judicial clerkships.

5. A massive infrastructure revamp is underway. The expansion includes modern academic blocks, new hostels and facilities on a newly allotted 7-acre campus.
