BIHAR TOURISM POLICY

A VISIONARY LEAP TOWARDS SUSTAINABLE AND INCLUSIVE GROWTH!

Bihar, a land steeped in the glory of ancient empires and spiritual wisdom, is now scripting a bold new chapter in its journey—this time through the lens of tourism. With the Bihar Tourism Policy 2023, the state aims to unlock its vast cultural, ecological, and spiritual assets to create jobs, attract investment, and celebrate its unique heritage with the world.

This policy is far more than a government directive—it is a heartfelt vision shaped by the aspirations of the people. It seeks to breathe new life into every monument, every sacred pilgrimage site, and every untouched natural haven, transforming them into engines of growth that are inclusive, empowering, and sustainable. It is a call to reimagine Bihar not just as a destination, but as a living, evolving story—where heritage becomes a path to prosperity, and every journey enriches both the traveller and the land.

What Makes Bihar Special

If history had a heartland, it would be Bihar. From the enlightenment of Buddha to the teachings of Mahavira, from the halls of Nalanda to the domes of Sasaram—Bihar has seen it all.

Some of its must-visit destinations include:

- **Bodh Gaya:** The site where Siddhartha attained enlightenment and became Buddha. The Mahabodhi Temple, a UNESCO World Heritage Site, is one of the holiest places for Buddhists globally and welcomes pilgrims and spiritual seekers year-round.

- **Nalanda:** Once the world's first residential university, Nalanda still whispers tales of intellectual grandeur. The site is also a UNESCO World Heritage Site and a symbol of ancient Indian academic prowess.

- **Rajgir:** A scenic valley town offering a spiritual and natural retreat. Visitors can soak in hot springs, take ropeway rides to the Vishwa Shanti Stupa, and explore Jain and Buddhist landmarks.

- **Vaishali:** Revered as the birthplace of Lord Mahavira, it also holds the distinction of being one of the world's earliest republics.
