RPGIS Shapes Tomorrow's Leaders Through Holistic and Innovative Learning.

RP Goenka International School (RPGIS), a proud initiative of the RP-Sanjiv Goenka Group, is an authorised IB World School and Eastern India's first IB PYP school. Built on a foundation of academic excellence, RPGIS seamlessly blends cutting-edge infrastructure with emerging digital technologies and the latest educational research to shape resilient, future-ready leaders.

At RPGIS, learning extends beyond textbooks. True education happens inside and outside the classroom. Our approach integrates emotional, social, ethical, and academic growth, ensuring students thrive in an environment that nurtures critical thinking, creativity, and autonomy. We cultivate compassionate, confident, and resilient leaders ready to navigate an evolving world.

Emphasis is placed on creating a positive school environment that meets both the academic and non-academic needs of students. Through inquiry-based learning and a strong value system, we inspire a lifelong love for learning and empower students to become well-rounded, responsible global citizens who contribute positively to society and help shape a peaceful, united world.

Ideas Built into Reality

At RPGIS, innovation is a mindset woven into everyday learning. Anchoring this vision is our future-ready Design Thinking Lab — a dynamic space where students turn empathy and ideas into tangible solutions using cutting-edge tools and technologies. Equipped with everything from laser cutters and 3D printers to scroll saws and jigsaws, the lab fosters hands-on exploration across disciplines.

Students move beyond theory to prototype real-world models, developing critical thinking, technical aptitude, and a deep sense of purpose.

Inclusive Design Inspires Innovation

Grade 6 students at RPGIS created an Inclusive Playground model with wheelchair paths, sensory-safe swings and calming zones, using 3D printing and traditional tools. Guided by the Design Thinking process of empathising, defining, ideating, prototyping and testing, they turned real-world challenges into opportunities, reflecting RPGIS's vision of every learner as a changemaker.
