“INDIA IS A MAJOR GLOBAL PLAYER AND CANNOT BE ARM-TWISTED”

On the eve of his visit to India, VLADIMIR PUTIN gave an extensive 100-minute interview to India Today Group TV channels at the Kremlin. The 73-year-old Russian president deftly fielded every question put to him. The most significant ones discussed his war in Ukraine, the American sanctions and punitive trade tariffs on India for buying Russian oil. His answers offered sharp, incisive and dispassionate views on some of the most pressing issues facing Russia, India and the world.
