Q. How has your economic status changed since the NDA government came to power in 2014?

More respondents than in the previous MOTN acknowledge economic change since 2014, but many still report worsening conditions

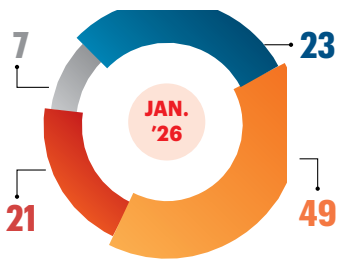

Q. Is your household income/ salary likely to improve in the next six months?

Income outlook stable: slight optimism for growth, but most expect no change

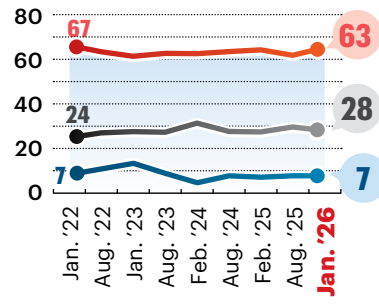

37% of Hindus say their economic status has improved since the NDA govt took charge in 2014, while 47 per cent of Muslims say it has deteriorated

Q. Has the lowering of GST slabs changed your consumption behaviour?

Lower GST appears to have had limited impact on consumer behaviour

Q. How do you compare your current daily expenses to those last year?

Expense pressures remain widespread; fewer respondents say costs are still manageable

still consider the unemployment situation 'serious' or 'very serious', though down from 71.5 per cent previously. About 53 per cent say government measures have created 'many' or 'some' jobs, while 41.1 per cent find them unhelpful, highlighting the need for stronger execution. Meanwhile, the appeal of government jobs persists, with 42.2 per cent preferring them, though down from 48.5 per cent in the earlier survey.

Starting and running businesses in India continues to be seen as difficult, with 52.5 per cent saying so, slightly down from 53.5 per cent previously. About 29.7 per cent say the Make in India and Digital India initiatives have 'significantly' impacted their lives, while 26.5 per cent see 'no real impact'; 11.6 per
