J.K. ORGANISATION
leadership & legacy

STRENGTHENING HEALTHCARE FOR A HEALTHIER INDIA

From the time when India's health coverage stood at just 14% to today's larger, more inclusive network serving both local and international patients. JK Organisation has kept pace with the sector's evolving needs – delivering quality healthcare right at the grassroots, while building state-of-the-art multi-specialty hospitals for all.

- From establishing multi-specialty hospitals to upgrading rural health infrastructure, our initiatives span preventive, curative, and emergency care. Reaching over 11 lakh people and driving better health outcomes across communities.
- Specialty care - Operate 7 hospitals and continue to annually upgrade 50 Anganwadi centers and 20 hospitals.
- Community Health - Various health check-up camps across the nation have been conducted. 150 villages have been served by mobile medical units.
- Women's & Children's Health Care-JK Organisation focuses on women's overall well-being, which includes health & awareness camps for menstrual health, prenatal and antenatal health. Our continuous efforts to enhance children's healthcare services reflect our commitment to fostering a healthier nation
