POWERING KERALA'S GREEN FUTURE

PM E-DRIVE SCHEME

₹ 274 Crore | 342 Charging Stations | 2 Phases

- Major push toward clean, sustainable mobility
- 23 high-speed mega charging hubs
- Built for fast-charging EVs, including buses & trucks

PUMPED STORAGE PROJECTS (PSPs)

6,000 MW Renewable Potential

Harnessing nature for stable, green power

Phase – I

Muthirapuzha – 100 MW
Poringalkuthu – 400 MW
Idukki – 700 MW
Kakkayam – 800 MW

BATTERY ENERGY STORAGE SYSTEM (BESS)

Five Projects by 2026

First BESS at Mylatti, Kasaragod – 125 MW/500 MWh

Four new 500 MWh projects coming up at Pothencode, Mulleria, Areekode, Sreekandapuram & Brahmapuram

India's first battery storage system that can supply power continuously for 4 hours or in intervals as needed.
