Policy, 2023, 11 investment proposals worth ₹13,610 crore have already been approved. Additionally, 22 proposals worth ₹17,810 crore are under process, while 29 proposals worth ₹56,000 crore remain in the pipeline. Countries such as Japan, the United States and Belgium have emerged as major investors.

A substantial share of this investment has flowed into the IT and electronics sectors. Noida and Greater Noida are now counted among India's largest electronics manufacturing clusters. Global participation in mobile phone manufacturing, component production and data-driven services has propelled the sector to new heights. Advanced electronics manufacturing corridors have placed Uttar Pradesh alongside Asia's leading technology hubs. Cities such as Lucknow and Kanpur are also emerging as new centres for service-based industries and startup ecosystems, further diversifying the state's industrial profile.

On the Ease of Doing Business front, Uttar Pradesh has set new national benchmarks. The state government has implemented 4,675 administrative reforms, of which 2,500 are directly business-centric. These reforms aim not only to shorten procedures but to make them clearer, more transparent and technology-enabled.

Through the Nivesh Mitra portal, over 525 services across 43 departments are now available on a single platform. Licensing, approvals and certifications have become time-bound and fully trackable. Following Nivesh Mitra 2.0, preparations are underway for Nivesh Mitra 3.0, which will feature GIS-based land banks and live mapping of industrial plots eliminating the need for physical site inspections.

AI-powered dashboards support real-time data analysis and informed decision-making. The grievance redressal system provides continuous updates via WhatsApp, SMS and email, significantly enhancing trust and transparency.

To strengthen accountability within the administrative framework, KPI-based evaluation and promotion systems have been implemented in UPSIDA. This has had a direct impact on processing efficiency. While 625 applications were processed in 2018-19, the number rose to 3,059 applications in 2025-26 an increase of nearly 389 per cent. Investor satisfaction now stands at 96.32 per cent, reflecting tangible improvement on the ground.

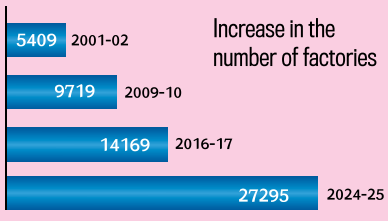

Alongside large investments, equal emphasis has been placed on small industries. Uttar Pradesh today hosts over 9.6 million MSME units, providing employment to millions. Under the MSME Promotion Policy 2022, capital subsidies ranging from 10 to 25 per cent are offered in backward regions, with additional incentives for SC-ST and women entrepreneurs, accelerating inclusive growth.

Through the Nivesh Mitra and MSME One Connect portals, over 1.9 million licences have already been issued.

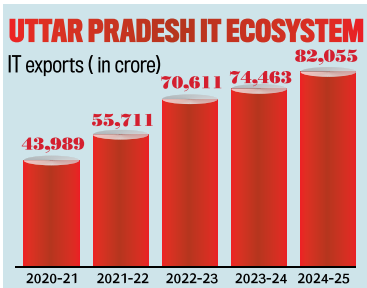

Agriculture- and technology-based small industries are expanding rapidly. Innovation hubs emerging in Lucknow and Kanpur are promoting initiatives such as drone monitoring and AI-enabled farming. Under the Viksit UP 2047 Vision, 33 sector-specific policies directly target MSMEs. These efforts are contributing nearly ₹1.2 lakh crore to the state's economy while generating new employment opportunities in rural areas.

> "Inspired by the Prime Minister's vision, Uttar Pradesh today holds a leading position in road, air and water connectivity. Law and order has been strengthened, making the state an attractive investment destination. Uttar Pradesh is rapidly emerging as a global hub for IT, electronics and semiconductor manufacturing."
>
> —***Yogi Adityanath,*** *Chief Minister of Uttar Pradesh.*

RAPID PACE OF INDUSTRIALISATION

UTTAR PRADESH IT ECOSYSTEM

THE FLIGHT OF INDUSTRIAL GROWTH

- Over the past eight and a half years, Uttar Pradesh has received investment proposals worth nearly ₹45 lakh crore. More than ₹15 lakh crore worth of projects have already been grounded, creating jobs for over 60 lakh youth and generating livelihoods for millions more.
- Under the PM MITRA Park Scheme, a mega integrated textile and apparel park is coming up in Lucknow-Hardoi; mega leather clusters in Hardoi and Kanpur; a Plastic Park in Gorakhpur; a Perfume Park in Kannauj; and Chemical and Pharma Parks in Ghaziabad, Lucknow, Kanpur Nagar, Gorakhpur and Hapur.
- Approval granted for 11 Plug-and-Play Parks in Unnao, Saharanpur, Meerut, Amroha, Sitapur, Aligarh, Kanpur Dehat, Hapur, Sambhal, Jhansi and Mathura. Plans are underway to develop textile parks in 10 districts named after Sant Kabir and leather parks in two districts named after Sant Ravidas.
- The UP International Trade Show (UPITS) is organised annually. UPITS 2025 saw participation from 2,250 exhibitors and over 5 lakh visitors, with more than 2,400 MoUs signed between government, industry, academia and global institutions.
- To enhance industrial ease, 4,675 regulatory compliances have been reduced. District Export Promotion Committees have been constituted in every district. The Incentive Policy-2023 has been announced to attract investments from FDI Fortune Global 500 and Fortune India 500 companies.
