Sacred Identity of Nature–Uttarakhand's GI-Tagged Products

Under the Geographical Indications of Goods (Registration and Protection) Act, 1999, a GI (Geographical Indication) tag is granted to products that originate from a specific geographical region and possess unique natural qualities, traditional production methods, or socio-cultural heritage associated with that place. The primary purpose of the GI tag is to establish the product as "the authentic version belonging exclusively to that region", distinguish it from imitations or similar products produced elsewhere, and provide economic benefits to local farmers and skilled artisans.
