HERO FUTURE ENERGIES®

planet positive power

Accelerating Decarbonization. Enabling a Sustainable Future.

7.2 GWp Renewable Energy Portfolio + **2.3 GWh** of Battery Energy Storage

17.3 million+ tonnes of CO_2 mitigated (as of FY 2024-25)

Pan India footprint - operations across 8 states

Demonstrated Expertise in **Cutting Edge Clean Technologies**

Why Partner with Hero Future Energies?

- **Legacy inspiring Trust & Lasting Relationships -** renewable energy arm of Hero Group
- **Pioneering Clean Energy Solutions -** Hybrid wind–solar–battery systems, RE-RTC and FDRE
- **Custom Green Energy Solutions -** Onsite and offsite solutions tailored to business operations
- **Technology-Led Performance -** AI-enabled forecasting, digital monitoring, and predictive maintenance
- **End-to-End Energy Transition Partner for C&I -** Support beyond RE generation
- **Net Zero, Delivered with Precision -** Decarbonisation roadmaps for hard-to-abate industries
- **Flexible Financing -** Minimal upfront investment
- **Proven Impact -** 250+ organisations already benefitting from reduced emissions + lower energy costs
