

THE SCIENTIST WHO INSURED A NATION

HOW DR. TAPAN SINGHEL SPENT 25 YEARS PROVING TRUE LEADERSHIP ISN'T BUILDING EMPIRES—IT'S BUILDING EMPIRE BUILDERS.

How many leaders can say they have shaped generations of Chief Executive Officers? How many can watch their most talented leaders leave to build empires of their own, yet continue to see their own organization grow stronger? Very few. Yet Dr. Tapan Singhel has demonstrated this rare leadership paradox repeatedly. Known widely as The Insurance Man of India, he is a leader who did not merely build a company; he built people, institutions, and an ecosystem of leadership that continues to expand India's insurance frontier.
