PLEXUS®
Neuro and stem cell research centre

THE BIRTH OF PLEXUS: SCIENCE WITH COMPASSION

DR. NA'EEM SADIQ
Pioneering Stem Cell Therapy in India

Born and raised in Bangalore, Karnataka, Dr. Na'eem Sadiq is a trailblazer in the field of regenerative medicine. With an impressive academic background, he completed his MBBS at Gulbarga University, Karnataka, and later pursued advanced studies in neurology and clinical neurophysiology in London. His professional journey took him to some of the most prestigious medical institutions in England and the Middle East. In India, Dr. Sadiq began his career at NIMHANS, a renowned hub for neurology and psychiatry. Today, he serves as the Medical Director and Head of Stem Cell Therapy at Plexus Neuro and Stem Cell Research Centre, where he leads a team of scientists and rehabilitation professionals dedicated to transforming lives through innovative treatments.

Established on August 15, 2011, Plexus Neuro and Stem Cell Research Centre was born out of Dr. Sadiq's vision to provide affordable, cutting-edge treatments for patients suffering from debilitating neurological disorders. Over the past decade, Plexus has grown from a modest four-room clinic to a six-storey with basement parking multidisciplinary centre. The clinic's core values of improving the quality of life for individuals with disabilities, coupled with a promise of unconditional care, have positioned Plexus as a leader in the stem cell therapy industry.

BUILDING A DREAM: THE PLEXUS JOURNEY

Plexus combines the power of Regenerative Medicine with the expertise of rehabilitation professionals specializing in physical, occupational, and speech therapy. This holistic approach not only treats the disease but also addresses the overall well-being of the person. The institute's state-of-the-art stem cell laboratory ranks among the best globally, offering a beacon of hope to patients with conditions previously thought incurable.

> **The centre offers stem cell therapy, physical therapy, occupational therapy, cognitive rehabilitation therapy, sensory integration therapy (SIT), behaviour therapy, cognitive behaviour therapy, speech, and swallowing therapy. And it also offers state of the art aqua therapy one of its kind in India and virtual rehabilitation therapy.**

"Rome wasn't built in a day," and neither was Plexus. Dr. Na'eem Sadiq's path to establishing Plexus is a testament to his perseverance and commitment. Over the course of 37 years, Dr. Sadiq has taken countless risks, made significant sacrifices, and navigated difficult personal and professional challenges. From standing firm against skeptical peers in the medical fraternity to balancing the needs of his patients with family responsibilities, Dr. Sadiq has faced insurmountable stress and numerous hurdles.

Yet, his unwavering belief in God and his determination to push boundaries have propelled him forward. Stem cell therapy, a relatively underutilized field when he first encountered it, became his answer to treating degenerative neurological disorders. Witnessing his father's battle with a neurological illness, which had no cure at the time, intensified Dr. Sadiq's quest for a solution. His father's teachings and life lessons continue to be his greatest source of inspiration.

Plexus Neuro and Stem Cell Research Centre: Leading the Way in Regenerative Medicine. Plexus Neuro and Stem Cell Research Centre is at the forefront of treating chronic diseases through advanced therapies. The center offers a State of the art aqua therapy, one of its kind in India, Virtual rehabilitation, including stem cell therapy, physiotherapy, occupational therapy, speech therapy, cognitive behavioral therapy, and sensory integration therapy. Together, these treatments provide effective rehabilitation for patients suffering from neurological and neuropsychiatric disorders, improving both their quality of life and overall well-being. Dr. Na'eem Sadiq's vision and relentless pursuit of excellence have made Plexus a beacon of hope for those in need, demonstrating the transformative power of science, compassion, and unwavering determination.
