Narendra Firodia: A Social Catalyst Propelling Ahilyanagar's Transformation

Narendra Firodia, a distinguished social entrepreneur, investor, and technologist, is fundamentally changing the landscape of Ahilyanagar (formerly Ahmednagar), Maharashtra. His commitment transcends business, leveraging technological and philanthropic endeavors to usher in significant community upliftment. Firodia's work is deeply rooted in his family's legacy of industrial revolution and active participation in the freedom struggle, drawing inspiration from Mahatma Gandhi's principles.

Philanthropic Initiatives: Championing Compassion and Innovation

Firodia's philanthropic efforts are channeled primarily through the Shantikumarji Firodia Memorial Foundation. This organization is dedicated to holistic human development, focusing on:

Healthcare and Education:

Education & Healthcare — Building a Better Tomorrow

We believe that every individual deserves the opportunity to learn, grow, and thrive. Through our initiatives, we support children from primary education all the way to advanced studies — including higher education and PhD programs — ensuring that financial limitations never come in the way of ambition.

In healthcare, we are committed to helping underprivileged families receive timely medical attention. From financial assistance for treatments to running health-awareness campaigns, we strive to promote wellbeing at the grassroots level. We also extend strong support to hospitals by providing essential medical equipment and resources that help improve patient care and save lives.

Our vision is simple — to empower every life we touch with dignity, hope, and opportunity.

Hunger Eradication

Through our Firte Annachhatralaya food-van initiative, we distribute fresh, nutritious meals every single day to those who need them the most. Serving over 7,00,000 food parcels since 2021 — currently 500 meals daily — the project is a step towards ensuring dignity and nutritional security for vulnerable communities.

No one should go to bed hungry — that is the promise we strive to uphold.

Art & Culture :

Preserving Indian Art & Culture

The Foundation proudly organizes Ahilyanagar Mahakarandak — Maharashtra's biggest stage play competition — providing a powerful platform for emerging artists to showcase their talent. By nurturing creativity and encouraging youth participation in theatre, we aim to preserve and promote India's rich cultural legacy for generations to come.

Sports Development :

Firodia's unwavering commitment to sports shines through initiatives like Maximus Sports Academy and the Nagar Rising Foundation, both dedicated to nurturing young talent and promoting a culture of fitness. By providing access to quality training, modern facilities, and competitive exposure, we are shaping future champions — and working towards placing Ahilyanagar firmly on the global sports map.

Digital Empowerment and Technological Leap

As a keen technologist, Firodia champions digital inclusion in Ahilyanagar. He has been a driving force in the region's telecom advancement since 2002. His most notable technological ventures include:

- **Letsupp:** A proprietary digital platform that leverages WhatsApp to connect businesses, retailers, and customers, offering comprehensive digital solutions globally.
- **I Love Nagar:** A dedicated digital application that empowers Ahilyanagar residents to address issues and engage directly with local governance, symbolizing Firodia's commitment to tech-driven community empowerment.
- **You Care Lifestyle:** Co-founded with Luke Coutinho, this wellness platform encourages a holistic, chemical-free lifestyle, promoting local produce and improving health outcomes.

Angel Investor and Media Presence

Firodia is also an active angel investor, supporting startups across Health-Tech and IT, reinforcing his vision for a technology-forward future in Ahilyanagar. His influence extends to media through Onevoice Transmedia, a leading digital media service provider, and the Ahilyanagar Film Company, which focuses on culturally rooted storytelling to uplift local creative talent.

MAKE INDIA GREAT AGAIN
