Sanjay Speech Hearing and Rehabilitation Center

Voice is more than sound—it is identity, confidence, and self-expression.

Few professionals embody this belief as profoundly as SLP Sanjay Kumar, one of India's most respected names in communication sciences and non-surgical voice rehabilitation. As the Founder and Director of the Sanjay Speech Hearing and Rehabilitation Centre, Bangalore, he has championed a global movement for accessible, evidence-based voice therapy. A distinguished alumnus of AIIMS New Delhi (B.Sc. Hons. in Speech & Hearing) and AIISH Mysore (Master's in Speech-Language Pathology), Sanjay has devoted his career to restoring voices—literally and emotionally.

Roots That Built a Vision

Born in a simple agricultural family in the Araria district of Bihar, Sanjay grew up with the values of resilience, humility, and perseverance. His academic brilliance emerged early when he secured All India Rank 2 in the AIIMS entrance examination, marking the beginning of an extraordinary academic journey. His years at AIIMS and later at AIISH shaped his passion for voice therapy, leading him toward a life dedicated to transforming communication abilities.

In 2010, he founded the Sanjay Speech Hearing and Rehabilitation Centre in Bangalore, a center known globally for its non-surgical approach to voice disorders. Today, individuals from across India and abroad—singers, actors, teachers, corporate leaders, radio jockeys, and public speakers—seek his expertise.

A Journey That Came Full Circle

Two decades after walking the halls of AIIMS as a student, Sanjay returned in 2025 as a keynote speaker at DISHACON—a symbolic moment in the same auditorium where his journey began in 2005. His clinical work, research-driven insights, and innovative therapeutic models have placed him among the most influential voices in the field.

During the COVID-19 pandemic, when communication barriers were at their peak, Sanjay ensured continuity of care through advanced teletherapy, helping patients regain normalcy when the world struggled to communicate.

SLP Sanjay Kumar

Mastery in Voice and Speech Disorders

Sanjay's expertise spans a wide range of conditions, and his center is known for achieving rapid, long-lasting results through non-surgical interventions. His clinical excellence covers:

- **Puberphonia** – enabling young men to achieve a natural deep voice within days
- **Dysphonia due to vocal cord paralysis** – improving clarity, loudness, and vocal stamina
- **Stuttering and fluency disorders** – empowering clients with rhythm, confidence, and control
- **Soft voice and vocal weakness** – restoring strength without strain
- **Functional aphonia** – addressing psychological silence with empathy
- **Complex conditions** such as sulcus vocalis, phonatory gap, spasmodic dysphonia, cluttering, and professional voice care for performers.

His work blends scientific precision with human understanding—a combination that has changed thousands of lives.

Awards, Honours, and Global Recognition

Sanjay's contributions have earned significant national and international acclaim:

- Global Healthcare Excellence Award (2015)
- National Healthcare Excellence Award (2016)
- Leading Voice Therapy Clinic of the Year (2017)
- Icon of the Year Award (2018)
- Featured in Top 10 AIIMS Alumni Leaders, CEO Insights (2023)
- Named Legendary Influential Leader, Fortune India Exchange (2023)
- His Centre recognized by AsiaOne Magazine as one of the Greatest Brands 2024–25 across Asia, Americas, and Africa
- Outstanding Voice Therapist of the Year (2023)
- Iconic Achievers Award for Outstanding Voice Therapist & SLP (2024)

On World Voice Day, April 16, 2025, he and his Centre were honoured by Union Minister Prof. S.P. Singh Baghel at the prestigious India's Greatest Brands & Leaders ceremony at Bharat Mandapam, New Delhi.

Shaping the Professional Community

Sanjay has significantly contributed to academic and clinical discourse:

- **ISHACON 2020,** PGIMER Chandigarh – Panellist on "E-Solutions in Communication Sciences"
- **ISHACON 2023,** Delhi – Co-Chairperson
- **ISHACON 2025,** Patna – Chairperson, leading discussions on technology and voice care.
