

Management" award at the Water Digest Water Awards 2023–24, recognising the state's exemplary performance in integrated water resource planning.

FLOOD CONTROL AND NATURAL DISASTER MANAGEMENT

At the 56th meeting of the Haryana State Drought Relief and Flood Control Board, 352 new schemes worth ₹657.99 crore were approved to mitigate flood and waterlogging risks. Additionally, 463 schemes worth ₹1,489.54 crore received approval. In the financial year 2025–26, a total expenditure of ₹382.44 crore has been incurred on 815 schemes aimed at flood control and disaster preparedness.

WATER SUPPLY TO 100% TAIL-ENDS

To ensure equitable water distribution, especially to tail-end fields, a special campaign was launched focusing on difficult and underserved areas. To combat theft and illegal diversions, a state-level Special Task Force was constituted in collaboration with a dedicated police force for the irrigation and power sectors, ensuring water reaches 100% of designated fields.

WATER DISCHARGE DURING MONSOON 2024

Significant water discharge was recorded in the monsoon season of 2024 to meet the irrigation demands:

- **JLN Feeder:** 3,500 cusecs
- **Loharu Feeder**: 1,340 cusecs
- **Mahendragarh Canal:** 1,150 cusecs
- **JLN Canal:** 648 cusecs

Haryana is making significant progress in water conservation through its Micro Irrigation and Canal Area Development Authority (MICADA). Since 2014, over ₹1,529.45 crore has been invested to provide irrigation facilities to 11.44 lakh acres by converting unlined watercourses into lined ones. Under the flagship programme "Har Boond Bachaao, Har Khet Pani", MICADA is promoting micro-irrigation on a large scale.

To support this, two key policies—the Watercourse Lining Policy 2021 and the On-Farm Water Tank Policy 2021— have been implemented. Farmers can apply online via **https://micada.haryana.gov.in** to access support. The state offers an 85% subsidy on micro-irrigation systems and up to a 75% subsidy for solar-powered pumps.

With the identification of 1,144 watercourses and a budget of ₹200.50 crore for FY 2025–26, the state is committed to ensuring sustainable irrigation. These efforts aim to ensure every drop is conserved and every field is irrigated.

31 MILK PROCESSING PLANTS TO BOOST MILK PRODUCTION

Up to November, 2025, 31 milk processing plants were established across Haryana to strengthen dairy infrastructure. Under the Pandit Deen Dayal Upadhyay Pashudhan Bima Yojana, launched in 2014–15, over 15.33 lakh animals have been insured, with ₹140.27 crore provided in premium subsidies—85% for general categories and 100% for SC beneficiaries. Compensation of `1 lakh is offered for the death of an insured milch animal, and ₹105.81 crore has so far been disbursed in
