

widening of 1,275 km roads from 12 to 18 feet.

URBAN DECONGESTION AND BYPASS PROJECTS

In order to improve traffic flow in cities, 14 new bypasses have been approved at a cost of ₹1,030 crore. These include:

- Kharak–Bhiwani Road (₹247 crore): fully operational
- Pinjore bypass (₹170 crore): 97% complete
- A four-lane elevated road in Faridabad, connecting NH-19 to the Delhi–Vadodara Expressway via Ballabgarh and Mohna Road, is under construction at a cost of ₹215 crore.

RAIL OVERBRIDGES AND UNDERPASSES

To eliminate level crossings and enhance safety, Haryana is working with Indian Railways to replace the state's 759 level crossings (592 manned, 167 unmanned) with bridges.

Since October 2014, the state has completed 100 rail overbridges (ROBs), underpasses, and high-level bridges at a cost of ₹2,052.28 crore. Another 33 projects (₹556.38 crore) are under construction, while 51 earlier projects (₹829 crore) were completed before 2014.

EXPANDING KEY GROWTH CORRIDORS

Haryana is focused on strategic road corridors that will help boost inter-state and regional connectivity as well as the economy. These projects reflect Haryana's long-term infrastructure strategy, focused on quality, safety, and sustainability.

Key projects include:

- Faridabad–Manjhawali four-lane Yamuna bridge (₹98 crore), linking Faridabad to Greater Noida
- Jhajjar–Badli Road (₹18.95 crore), improving access to Delhi and surrounding industrial zones
- Hathin bypass (₹16 crore) and NH-148B widening (₹149 crore), enhancing mobility and trade

With investments exceeding ₹40,000 crore since 2014, the state is rapidly emerging as a national model for integrated, high-impact development, transforming rural and urban connectivity, easing congestion, and reshaping its infrastructure landscape

INFRASTRUCTURE DEVELOPMENT IN NCR

Under the National Capital Region Planning Board (NCRPB) loan assistance programme, the Haryana State Roads and Bridges Development Corporation (HSRDC) has:

- Completed nine ROBs at the cost of ₹409 crore
- Built 22 roads spanning 454 km with an investment of ₹1,694 crore
- Is building four new roads covering 80 km (₹380 crore) and two flyovers (₹92 crore). A 38-km road from Chhuchhakwas to Karoli in Jhajjar district (₹134 crore) has been approved for 2025–26 to enhance rural-industrial connectivity.

STATE HIGHWAY AND BRIDGE PROJECTS

Under the State Highway Bridge and Road Programme, the state has:

- Completed 19 major projects (14 overbridges, five underpasses) at a cost of ₹631 crore
- Another 13 ROB/RUB/FOB projects worth ₹388 crore are in progress
- Four new projects (₹180 crore) are planned for the next financial year
- A major upgrade of the Mahendragarh–Narnaul–Dadri Road—a 65-km stretch being widened to four lanes with an allocation of ₹302 crore—is also underway. This road will enhance cross-border connectivity with Rajasthan.

Through the HSRDC, the state continues to implement strategic projects that improve rural access, reduce travel time, and support industrial growth. The Faridabad–Manjhawali bridge, Chhuchhakwas–Karoli road, and NCRPB-supported corridors are reshaping transport across the National Capital Region and beyond.

Upcoming works worth over ₹3,000 crore, including ₹2,586 crore for roads and ₹488 crore for bridges, are already in the pipeline for FY 2025–26, indicating continued momentum.

Haryana's infrastructure transformation is not just about roads and bridges—it's about connecting people to opportunities. With over 50,000 km of roads built or upgraded, and hundreds of critical projects completed or underway, the state is setting new benchmarks in public infrastructure, rural-urban integration, and economic development.
