

AN ERA OF EMPLOYMENT (2014-25)

- 65 employment exchanges fully digitised with state-wide linkage.
- 4.04 lakh job-seekers registered on the state portal.
- 4.97 lakh youth benefited from Saksham Yuva Yojana.
- ₹3,220.79 crore disbursed through Saksham Yuva.
- 14,489 youth placed; 18,514 received skill training.
- 32,361 beneficiaries received ₹226 crore in unemployment allowance.
- 13,305 career counselling sessions conducted, reaching nearly 5 lakh youth.
- 2,873 job fairs held, enabling 1.15 lakh placements in the private sector.
- 1.80 lakh government jobs awarded on merit.
- CET was introduced, replacing multiple exams for Group C and D posts.

JOBS LANDSCAPE TRANSFORMED

Over five lakh job-seekers connected, thousands trained, and a generation empowered: technology, transparency, and training redefine Haryana's employment landscape.

Over the past 11 years, Haryana has shown what proactive employment generation and good governance can achieve through technology, transparency, and human-centric policy.

The state's employment ecosystem is anchored by 65 digitally-connected employment exchanges, creating a unified, tech-driven network linking employers with job-seekers. These centres bridge the gap between education and industry by facilitating placements in both public and private sectors.

Up to Sep 30, 2025, 4,04,935 job-seekers had registered themselves on the state's official employment portal, hrex.gov.in. This platform facilitates job-matching, placement drives, online counselling, and access to skill development programmes.

Launched on November 1, 2016, the Saksham Yuva Yojana remains one of Haryana's flagship welfare schemes, offering financial support and work experience to educated unemployed youth. Initially designed for the graduates in Science, Engineering, Commerce, and Arts, the scheme was extended in August 2019 to include 10+2 pass youth, expanding its reach into semi-urban and rural areas.
