VIGNAN'S UNIVERSITY: TECHNOLOGY WITH A HUMAN FACE

An ABET- and NAAC A+–accredited institution, and one of Andhra Pradesh's fastest-rising universities, Vignan's University is shaping industry-ready graduates through innovation-focused academics, strong placements, and a vibrant student culture.

Founded by visionary educationist Dr. L. Rathaiah, Vignan's University (Vignan's Foundation for Science, Technology & Research) has steadily transformed into one of the most respected multidisciplinary institutions in South India. Known for its student-centric approach and hands-on professional training, the university has emerged as a preferred destination for engineering, management, science, and agriculture aspirants across the region.

"Education is not just about degrees; it is about developing the courage to innovate and the character to serve society," says Dr. Rathaiah, Chairman of the Vignan Group. His leadership has powered the university's expansion into a modern, research driven campus that emphasizes discipline, excellence and holistic development.

A Recognised Centre of Excellence

Vignan has earned ABET (US-based) and NAAC A+ accreditation, along with programme-wise NBA approvals and strong performances across national rankings—clear recognition of its steady improvement in academic outcomes, research productivity, and student satisfaction. Its disciplined academic ecosystem, supported by experienced faculty through the Faculty Industry Immersion Program and modern pedagogical practices, ensures that students receive industry-aligned education from the very first year.

Strong Placement Outcomes

85% of placements remain one of Vignan's biggest strengths. The university consistently posts high placement percentages across engineering and technology streams.

"At Vignan, every student is encouraged to dream boldly and prepare rigorously for Life." - Dr. L. Rathaiah

A dedicated Training & Placement Cell works year-round to enhance employability through:

- customised aptitude and communication training
- hands-on workshops & coding labs
- internship pipelines and industry projects
- soft skills and corporate readiness modules

Top recruiters from IT services, product engineering, manufacturing, banking, consulting and emerging tech sectors visit the campus each year. 15% of students opt for higher studies in leading Indian and international universities.

Modern, Student Centric Infrastructure

Spread across a serene green campus at Vadlamudi, Vignan offers a fully enabled learning environment:

- Advanced laboratories and research centres
- Well-equipped libraries and digital learning spaces
- Spacious hostels with Wi Fi and 24x7 facilities dedicated sports complexes, cafeterias and medical support

Dr. L. Rathaiah, Vignan's University

- A fleet of buses connecting all major routes

The campus is designed to support both high academic performance and wholesome living, ensuring students feel at home while pursuing ambitious goals.

A Vibrant Student Life

Life at Vignan is energetic, collaborative and diverse. Cultural fests, technical competitions, sports tournaments, innovation expos, student clubs, leadership forums, community engagement programmes and civil service programmes ensure students receive far more than classroom learning. Entrepreneurship cells and industry-linked innovation labs and publications encourage students to take ideas from concept to prototype, strengthening a culture of creativity and initiative.

Building future leaders from the grassroots level

The university has a deep commitment to the socioeconomic development of this region. Nearly 70% of our students come from agricultural families, and 40% are first-generation learners pursuing education for the first time in their families.Through continuous support and encouragement, these students are not only securing meaningful employment but are also growing into future leaders across various fields.
