In a world where healthcare trust is eroding, Micro Hospitals bring that trust back!

PACIFIC ONEHEALTH: INDIA'S EMERGING CHAIN OF MICRO HOSPITALS

Given the gaps within India's traditional healthcare system, Pacific OneHealth is preparing to enter as India's Emerging Chain of Micro Hospitals—envisioned not just as another healthcare brand, but as a movement shaped by a simple belief:

Healthcare should feel human again. Healthcare should be delivered as it should be.

Pacific OneHealth aims to bring together multispecialty care, advanced diagnostics, critical care capability, daycare surgeries, preventive programs, and a hospitality-inspired patient experience—all under one roof. Each upcoming Micro Hospital will provide a complete continuum of care, supported by 24+ specialties and multiple centres of excellence, designed to serve India's essential healthcare needs through a modern, community-first lens.

For doctors and healthcare professionals, Pacific OneHealth is shaping a working environment rooted in autonomy, efficiency, and meaningful patient engagement—everything a modern professional seeks in a next-generation care ecosystem.

THE VISION BEHIND INDIA'S EMERGING CHAIN OF MICRO HOSPITALS

Behind every healthcare transformation lies a story—and this one begins with a communicator who evolved into a reformer.

For over 25 years, Dr. Swadeep worked across India's leading hospital environments, observing both the brilliance and the limitations of large-scale healthcare. He saw:

- Patients are overwhelmed by processes
- Doctors burdened by commercial pressure
- Families lost in complex systems
- Communication gaps that compromised trust

"For three decades, The Pacific Group has built trust across several real estate sectors, including malls and schools, unified by one cornerstone principle: service first. It is with this foundational commitment that we now enter healthcare. We believe India deserves a clinically excellent, operationally smarter, and emotionally sensitive care model. Through Pacific OneHealth, we are creating a network of Micro Hospitals, designed to place patients and doctors at the center. We are launching three Micro Hospital in Delhi-NCR, with plans to expand across North India."

Mr. Saket Bansal
Founder, Pacific OneHealth
Director of Pacific Development Corporation Ltd.

These experiences ignited a simple but powerful question: What if healthcare could be simpler? What if it could be ethical? What if it could be human?

This aligned perfectly with the Pacific Group's vision—to build a model that is clinically excellent, operationally smarter, and emotionally sensitive.

Together, Mr. Bansal and Dr. Swadeep conceptualised Pacific OneHealth, a network focused on outcomes over occupancy, intimacy over infrastructure, and community over complexity.

We are launching three centres in Delhi NCR - Lajpat Nagar, Karol Bagh and Dwarka D-21, respectively, along with a centralised lab at Anand Vihar, SIDC.

"At Pacific OneHealth, we are building an ecosystem where doctors have access to world-class facilities, cutting-edge technology, and collaborative platforms that enable them to practice at their best. By joining us, you gain more than an institution - you gain a support system that empowers you to deliver better outcomes, expand your reach, and be part of a healthcare movement that puts both doctors and patients first."

Dr. Swadeep Srivastava
Co-founder & President of Pacific OneHealth
Founder of HEAL Health Group

WHAT'S NEXT?

Micro Hospitals represent more than a new format—they mark a quiet but powerful correction in the way India experiences healthcare. They bring care closer to where people live, restore dignity to the professionals' role, and rebuild trust in a system that has long struggled under its own weight.

They unite high-quality multispecialty care with community proximity, blend efficiency with empathy, and strengthen the bond between professionals and patients. With smarter resource utilisation and thoughtful technology integration, they create environments where teams collaborate better, communicate clearly, and deliver care with purpose.

In many ways, Micro Hospitals are the bridge between what India currently has and what India truly needs—a system that is accessible, ethical, human, and future-ready.

Pacific OneHealth stands at the forefront of this movement, building Micro Hospitals that bring care closer, strengthen patient trust, and create meaningful, fulfilling workplaces where healthcare professionals can finally thrive.

This is healthcare as it should be.
Join us in our movement to deliver it with trust and purpose.
