Luxury in Indian real estate is no longer just a matter of visual grandeur. Today, it is an evolving philosophy that prioritises the long-term well-being of the family unit and the planet. At the heart of this transformation is the Gulshan Group, a developer that has consistently redefined the boundaries of premium living in the Delhi-NCR region.

Celebrating the Trailblazers

The shift towards a more "human-centric" luxury was recently celebrated at the Icons of Influence event, hosted by *India Today HOME* in partnership with the Gulshan Group. The afternoon was more than a corporate gathering; it was a salute to the women trailblazers who are reshaping industries. From Ayurvedic hand massages by Soultree and a gorgeous grazing
