FINANCING VIKSIT BHARAT 2047
Building India's Fixed Income Architecture for the Next Big Leap

ANURAG MITTAL
Head, Fixed Income, UTI Mutual Fund

BONDS TO BOOST GROWTH

HARDIK CHHABRA

KEY TAKEAWAYS

- India's bond market is 16% of GDP versus 30–40% in advanced nations. To fund Viksit Bharat, it must expand 15–20x in 20 years
- There is a need to expand issuance beyond AAA-rated bonds (currently 70%) and widen the investor base, especially retail, to deepen bond market financing

"Private sector balance sheets are underleveraged, banking sector's are strongest in last 20 years. **It's a very, very good time for banks and corporates to raise more debt** and finance India's growth story

"The biggest requirement for credit comes from lower-rated, small-sized entities.... **We can bring more transparency in valuation** to help investors evaluate the performance of funds much more effectively

THE UNSHAKEN FOUNDATIONS: UAE Real Estate's Strength in a Volatile World

SMITA NAIR, *Head, International Sales, BNW Developments*

WHY UAE IS A SAFE HARBOUR

ATUL KUMAR YADAV

KEY TAKEAWAYS

- The future of luxury living in Dubai will go beyond address and aesthetics, with personalised experiences, wellness, tech playing a big role
- Over 40% of BNW's investors hail from India, alongside high net worth individuals from Europe, the UK and the US

"Even amid geopolitical uncertainty, **the UAE continues to stand out** as a safe haven for global real estate investors

The focus of BNW Developments is not just building homes, **but creating confidence** via partnerships, location, delivery
