GIS-2025 Will Take Madhya Pradesh to New Heights: CM Mohan Yadav

A historic milestone was achieved in Bhopal, the capital of Madhya Pradesh and the City of Lakes, on January 24. It is a matter of great pride that the 8th Global Investors Summit (GIS) 2025 commenced under the guidance and blessings of our esteemed Prime Minister Narendra Modi. These two days will establish new dimensions of progress and development in Madhya Pradesh.

The theme of this year's summit, "Infinite Possibilities," reflects the unlimited opportunities for industry and investment in the state. This grand gathering of investors will mark a new chapter in Madhya Pradesh's development journey. It is a privilege that Bhopal, the city of Raja Bhoj, is ready to embrace a glorious future while preserving its proud heritage.

We are immensely delighted that our visionary Prime Minister has personally graced this summit, giving his invaluable blessings for the golden future of Madhya Pradesh. This summit has attracted delegates from various countries, top industrialists, and investors, along with members of the Indian diaspora connected to the state. On behalf of 8.5 crore citizens of Madhya Pradesh, I extend a heartfelt welcome to all investors.

Under Prime Minister Modi's leadership, India is scaling new heights of growth, progressing toward becoming the world's third-largest economy. India's global stature and respect have risen significantly, and his vision is to make India the world's leading economic and strategic power by 2047. Aligning with this vision, Madhya Pradesh has developed a growth roadmap that is both rooted in heritage and globally oriented.

With the inspiration of our Prime Minister, we embarked on a journey of investment and industrial growth a year ago. Madhya Pradesh, India's second-largest state by area, is rich in water resources, forests, minerals, heritage, and agriculture. Every region of the state has its unique strengths, potential, and requirements. Keeping this in mind, we pioneered the concept of Regional Investors Summits to showcase the skills and industries of different regions.

To ensure ease of doing business and direct investor engagement, we organized a series of investment summits starting from Ujjain in March 2024, covering Jabalpur, Gwalior, Sagar, Rewa, Shahdol, Narmadapuram, and key cities like Mumbai, Coimbatore, Bengaluru, Kolkata, Pune, Delhi, as well as international destinations like the UK, Germany, and Japan. Through these conferences and roadshows, Madhya Pradesh has received investment proposals worth ₹4.8 lakh crore, generating approximately two lakh new job opportunities, reflecting strong investor confidence in the state.

We have declared 2025 as the "Year of Industry and Employment" and set ambitious targets to drive investments. To simplify and facilitate investments, we introduced 19 sector-specific policies covering industries such as automobile, textiles and garments, agriculture, pharmaceuticals, IT, data centers, animation and gaming, drones, semiconductors, minerals, petroleum, tourism, education, and healthcare.

Honorable Prime Minister has recognized Madhya Pradesh as the "Textile Capital" and a "Favorite Manufacturing Destination" of India, which is a matter of immense pride for us. He has also given us the 'Triple-T' mantra—Textiles, Tourism, and Technology—which we are committed to following.
