GIS-2025 SUCCESS:
MP Prepares for Industrial Boom with 21 Lakh Job Opportunities

With a record-breaking ₹30.77 lakh crore investment proposals received through the Global Investors Summit (GIS) 2025 and Regional Industrial Conclaves, Madhya Pradesh is now shifting its focus towards execution. If these investments materialize, the state is expected to generate 21.36 lakh new job opportunities.

Key Sectors Driving Investment & Employment

- **Industries Department:**
  ₹8.61 lakh crore investment, 6 lakh jobs
- **Urban Development:**
  ₹2.3 lakh crore investment, 2.3 lakh jobs
- **Renewable Energy:**
  ₹5.72 lakh crore investment, 1.4 lakh jobs

Bhopal to Get a World-Class Convention Center & Aviation Incentives

Chief Minister Dr. Mohan Yadav announced that a permanent convention center will be built in Bhopal for hosting large-scale events like GIS. Additionally, to boost air connectivity, the state will offer incentives for local and international flights, with ₹10 lakh per flight for international routes starting from Madhya Pradesh.

UNION HOME MINISTER AMIT SHAH'S VISION:
MAKING MP INDIA'S MANUFACTURING HUB

At the summit's concluding ceremony in Bhopal, Union Home Minister Amit Shah praised the ₹30.77 lakh crore investment proposals as a major milestone for Madhya Pradesh. He emphasized the need for rapid implementation of MoUs and assured that the government will provide a business-friendly administration with a transparent and stable policy framework.

"Madhya Pradesh was once considered a backward state, but in the last 20 years under BJP rule, everything has changed. By 2027, India will become the world's third-largest economy, and by 2047, a fully developed nation. To achieve this, all states must work together as 'Team India,' and this summit will play a crucial role in that journey," said Amit Shah.

Two-Pronged Approach to Ensure Investment Execution

1 Single Window System for Seamless Execution

- A dedicated 'Industry Cell' will be set up in every district, overseen by the District Collector.
- Investors will get immediate support for any requirements.
- 2025 to be observed as 'Industry & Employment Year' to accelerate business expansion.

2 Proactive Government Support

- Officials to actively chase investors instead of vice versa.
- Weekly reviews by Additional Chief Secretaries and monthly monitoring by the Chief Secretary.
- Strict tracking of investment projects to ensure smooth execution.
