nsidered for the table; figures are consolidated; **SOURCE** *BT Research, Ace Equity, CMIE*

across sectors. The top 100 were taken forward for further evaluation. Their performance over the previous three fiscal years—FY24, FY25 and FY26—was assessed using four parameters: three-year average PAT, PAT growth, profit consistency (the number of years in which the company remained profitable) and operating profit margin. The scores for each parameter were weighted and combined to arrive at the final ranking of the Top 100 Most Powerful Women in Business 2026. BT
